

## Signage Design

Retail

Office

Residential Address

### Signage Design key points:

- Retail signs and graphics will be unique to each shop.
- Projecting and symbol signs are encouraged.
- There will be no continuous, fascia signage.
- Back-lighted, plastic and aluminum box signs will not be permitted.
- Individually lettered signs are encouraged with or without illumination.
- Residential address signs will be located in front of each lobby and standardized.
- Public parking areas will be well signed for wayfinding.
